

## ADVANTAGES

- Convenient gravity removal of spent media, no requirement of vacuum equipment
- Available in a variety of materials of construction
- Predicted removal efficiency and lifetime by Camfil's proprietary software
- Contact time range of 2.5 seconds
- Air flow range from 450 - 3,000 CFM (800 to 5,000 m3/h) with optional fan
- Compact footprint for minimum use of plant room space

<b>Frame</b>	Stainless steel
<b>Media</b>	Activated Carbon; Impregnated Activated Carbon; Impregnated Activated Alumina
<b>Max Temperature (°C)</b>	90
<b>Min Temperature (°C)</b>	-21
<b>Installation Options</b>	Ducted units are typically installed on a concrete pad or roof assembly. See manual for instructions. Power is required if supplied with a fan and/or control panel.
